

Day 4: Brain Dump (LaTeX)

Name: _____

Date: 9/3/2025

1. What is the difference between the following outputs (if any)?

```
Text${subscript}$  
Text\textsubscript{subscript}
```

2. What is the difference between the following outputs (if any)?

```
\textit{words in italics}  
%%%%%%%% here's a comment break for legibility %%%%%%%%%  
\begin{it}  
words in italics  
\end{it}
```

3. Below I've pasted some LaTeX code to create a basic table.

Edit the code to:

- (a) Have the first column be center-aligned, and the second be right-aligned.
- (b) Add horizontal lines between each row in the table.

```
\begin{tabular}{|l|l|}  
Apples & Green \\  
Strawberries & Red \\  
Oranges & Orange \\  
\end{tabular}
```

4. **True** or **False**: in LaTeX, your bibliography is added at the end of the `main.tex` file, just after `\end{document}`
